

Marking & Coding Solutions

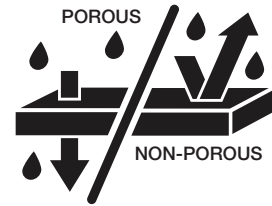

FOR THE FOOD & BEVERAGE INDUSTRY

Anser Printers

Industrial Thermal Ink Jet Printers

Thanks to Plug & Play, no technician is required for the installation of the systems and therefore saves additional time and costs.

	Part #	Max. Height	Porous/Non-Porous	Ink Cartridges	Price
U2 Smart	6003019064	0,5	Porous SP4 - 42ml / Non-Porous SPL - 36ml	● ● ●	\$1,495.00
U2 Smart One	6003019137	1	Porous/Non-Porous SP4 - 42ml	●	\$2,125.00
U2 Pro S	6003019145	0,5	Porous SP4 - 42ml / Non-Porous S2 - 32ml	●	\$1,845.00

U2 Smart

The U2 smart offers a very high printing quality at a massive 300dpi it creates images that are of amazing quality. The U2 smart is 100% maintenance free and is equipped with the most modern features such as database connection or network capability. It prints on almost every surface putting it in the range of high quality and versatile printers. Even 2-D barcodes achieve the highest level of printing quality. They are particularly suited for users who value quality features such as a sharp-edged 2-D code or network integration and want to find a cost-efficient solution.

U2 Smart One

The U2 Smart One prints texts and graphics in high resolution with unique 25 mm printing height. It offers the highest printing quality (600dpi) and maximum reliability thanks to its zero-maintenance and its most advanced technical features. Within the U2 printer family, this system is especially optimized for an effective print on porous printing surfaces such as cardboard or wood. For these surfaces optimized ink prints 2-D codes and barcodes with the highest level of printing quality and contrast. The colour is weather and UV-resistant.

U2 Pro S

Small, yet powerful, the Anser U2 Pro-S has a unique solvent compatible cartridge designed specifically for primary package coding applications. This mighty printer packs the punch of a CIJ (Continuous Inkjet) printer at a fraction of the size and cost. Many customers are finding applications that utilize the Pro-S instead of a CIJ! This printer specializing in printing on non-porous materials like plastic, rigid plastic, metal & aluminum, bags & pouches and glass.

Ink Jet Printers

YOUR PARTNER TO FIND THE BEST MARKING SOLUTION FOR YOUR APPLICATION.

BestCode

High speed. Non-contact. Continuous ink jet printing systems. Extremely versatile in printing on all substrates with instantaneous dry time. Ideal for best before dates, barcodes, lot codes and traceability. Print on corrugated cases, plastics, metals, glass, wood and many other substrates.

- Throw distance of 6 -25 mm
- High volume applications
- Bulk ink system with no waste
- Food grade inks available

Squid Ink Jet

Ideal for specific applications requiring large characters over 0.5" on a porous substrate. Can use 1 or 2 printheads from the same controller.

Co-Pilot: Feature rich printing systems with up to 30% larger print than comparable printers and an increased throw distance. High volume applications & bulk ink system with no waste.

SQ/2: Easy to replace & Install Printheads with industrial strength, heavy-duty gauge coated steel cabinetry. High volume applications & bulk ink system with no waste.

Reiner JetStamp - Mobile Unit

Handheld ink jet printer available to print characters 1/8" up to 1/2".

- Print on porous and non-porous substrates
- One and two line imprints
- Print program software
- Simple menu guidance through LCD display
- Rechargeable batteries and station

Conveyance Systems

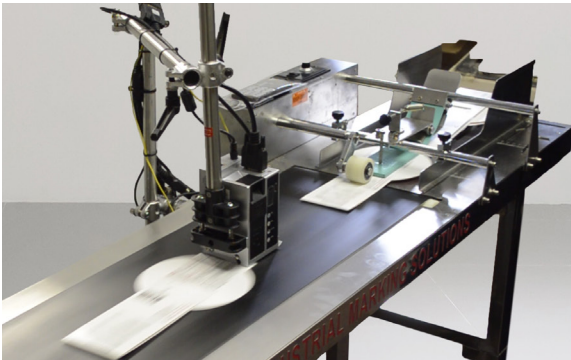

Universal Conveyor

Variable speed conveyor for any application and any print system. ESA approved.

- Belt width: 190 mm, 7.5"
- Frame: 1500 x 300 x 750 mm
- Variable Speed: 5-28 m/min

Part #	Price
B6110	\$1495

Universal Dispensing Conveyor

Variable speed conveyor for packaging. Can be used with any print system.

- Variable Speed: 15-20 m/min
- Belt width: 235 mm, 9.25"
- ESA approved

Part #	Price
A6110	\$4695

Universal Ink Jet Stand

Mounting Stand

This stand can be used with various models of ink jet printers.

- Adjustable vertical height and horizontal mounting arm
- Three leg base for stability & portability
- Rotational and height adjustment for printer

Part #	Price
IMS-1	\$495

Roller Coder

Designed for mounting directly on conveyor lines or packaging machinery. Available in a variety of sizes for side or top mounting.

Best suited for applying date/product codes or product information on cartons and other materials with porous or non-porous surfaces. Call for quotation.

Price Guns

Interchangeable Slug for ZS+7K

Dibond Signs

Aluminum outer with polyethylene core make dibond a commonly-used food-grade substrate. Great for indoor or outdoor use. Some key advantages are its temperature tolerance, light weight, corrosion resistance, durability and non-absorbent surface. Sufficient in weight and thickness to withstand repeated washing. Finished to have a smooth, easy-to-clean surface and resistant to pitting, chipping, crazing, scratching and scoring.
