ISO 9001:2015 REGISTERED

A registered Quality Management System company.

ENVIRONMENTAL INITIATIVES

Sterling is committed to continually improving our environmental initiatives on a local and global scale. We strive to better our air emissions, reduce our water, energy, and chemical usage, and improve our waste management by strengthening our recycling. We have an environmentally aware corporate culture with a full recycling program for paper, plastic, cans, and cardboard (aided by our large-scale compactor for recycling corrugate).

Sterling is excited to announce that in addition to our Japanese made eco-green Xstamper product line, almost all other Stamp, Dater, and Numberer mounts are now made in Europe with up to 65% post-consumer recycled content and include a non-toxic, water-based ink cartridge that can be reinked or replaced. Compact design reduces material needs and shipping requirements and CO2 footprint is neutralized by implementing balancing offset programs.

Made in Europe with a compact design - less material and shipping requirements

Almost all are made with up to 65% post consumer recycled content

Non-toxic water-based ink cartridge can be reinked or replaced when needed

Climate-Neutral is standard on all Professional and many self-inking stamps

We are happy to announce the transition of our PS Upright Pre-Inked stamps over to much cleaner flash or laser options. No more magnesium metal, nitric acid, and energy consuming vulcanising. Our dies for our Self-inking and Classic stamp lines continue to use water based liquid photopolymer complete with a unit that reclaims all uncured polymer back into the process to minimize waste.

Our facility was upgraded to attain benefits for both the environment and Sterling. The facility received new high efficiency HVAC systems, LED lighting throughout, a new roof, filtered water coolers, and programmable thermostats. All windows were replaced with high efficiency glazed glass with additional solar reduction film, and all faucets and toilets were upgraded to water efficient models. Our property sits on 4 acres of maintained green space for staff and wildlife to enjoy, right next to walking paths. Our multiple feeders allow us to watch beautiful local birds, chipmunks, squirrels, and groundhogs.

Our digital print-on-demand production processes in our Print and Signage departments have significantly reduced stock levels, waste, and chemicals. Direct-to-plate offset printing and the adoptions of aqueous and citrus based inks and cleaners have significantly reduced the use of offset chemicals. Another positive step forward was transitioning from solvent based printing to low emission wide format printing with UV curable ink technology that does not generate VOC toxins or waste. Lastly, our on-site recycling of sheet photopolymer washout solvent means more than 90% is now recycled back into the process, which had been previously sent off-site for recycling.

SPECIALTY STAMPS

Special applications that need a custom stamp.

- For use with fast drying inks
- Marking on non porous and uneven surfaces
- Perfect for small businesses and DIY applications

Traditional Rubber Stamp + Deep Mould

Our traditional rubber stamps have photopolymer dies, perfect for marking on porous surfaces like paper, but if you're going to be stamping thicker porous surfaces (like corrugated cardboard) or for large stamps with a lot of detail, then the deeper mould ensures a quality impression on a larger variety of surfaces.

Natural Rubber

Recommended when stamping non porous surfaces that require fast-drying inks such as catalogues, photographs, metal, and varnished wood. Our natural rubber stamps will not swell when using fast dry ink, allowing a good impression every time you stamp.

Natural Rubber + Deep Mould

Natural Rubber Stamps with Deep Mould are recommended for oversize stamps with detailed logos, multiple lines in a thin font style, and stamp images containing larges areas with no graphics to ensure all details and text are legible ensuring a quality stamp impression.

Rocker Mount

For uneven surfaces or areas with mild recess, a deep mould with a rocker mount is recommended. Best for wood and corrugated cardboard. Price includes mount and stamp.

Part #	Size (in)	Size (mm)	Price
RM1	5-3/4 x 4"	146 x 102 mm	$147.95
RM2	5-3/4 x 6"	146 x 152 mm	$171.65
RM3	5-3/4 x 8"	146 x 203 mm	$194.95
RM4	5-3/4 x 10"	146 x 254 mm	$218.95

Natural Rubber + Deep mould on a Rocker mount with a Gate Handle stamped on a corrugated cardboard box

PRINT SERVICES

Comprehensive Print Solutions Tailored to Your Needs!

We offer a full spectrum of printing services to support your business— from fast digital printing for small orders to traditional offset printing for large, high-quality runs. Our in-house bindery ensures your projects are finished with precision and care, whether you need booklets, brochures, or custom packaging. Plus, with our inventory management services, we help you stay organized and efficient, ensuring your materials are always ready when you need them. Partner with us for reliable, end-to-end print solutions that deliver results.

BUSINESS CARDS

Business Cards That Represent Your Brand with Precision!

Our business cards are crafted using premium materials and advanced printing technology to ensure exceptional colour accuracy and image clarity—perfectly aligned with your brand standards. Whether you choose digital or offset production, each card is produced with expert attention to detail and backed by our quality assurance team. With fast turnaround times and a variety of finishes and styles, we deliver business cards that make a lasting impression.

Classic
This card stock offers everyday reliability with excellent quality.

Executive
This heavier weight card stock offers a thicker, more rigid and durable business card.

Matte

Glossy

Matte vs. Glossy
Matte cards offer a smooth, non-reflective surface that gives a refined, understated look with excellent readability—ideal for professional and minimalist designs. Glossy cards, on the other hand, feature a shiny, high-impact finish that enhances colour vibrancy and image sharpness, perfect for bold visuals and eye-catching branding.

Vibrant Colour Business Cards

Printed in rich, full colour on both sides, these cards deliver bold visuals and sharp detail that bring your brand to life. Perfect for highlighting logos, imagery, and contact info with style and clarity.

FULL COLOUR VINYL

Custom decals for every purpose imaginable.

- Decals in small or large quantities
- Installation-ready vinyl letters and graphics

Which Material Is Right for You?

A

B

C

Permanent Vinyl Decal

- Durable more permanent option
- Heavy-duty adhesive
- Recommended for long-term use on walls and windows

Adhesive on front or back, laminated for indoor or outdoor use. Minimum order of $15.00. Call for quotation on orders over 100. For images with white or creamy colours, we recommend printing on white vinyl or printing with isolated white ink.

Removable Vinyl Decal

- Low-tac adhesive removable vinyl
- Great for temporary signage
- Recommended for short-term use on walls and windows

Sticks to glass without adhesive and can be taken off and reapplied without leaving residue. Great for signage you may want to replace. For images with white or creamy colours, we recommend printing on white vinyl or printing with isolated white ink.

Perforated Vinyl Decal

- Evenly spaced holes throughout the vinyl allow for one-way visibility
- Recommended for long-term indoor use or short-term outdoor use on windows

Utilize your window space for advertising without sacrificing natural light or visibility. Those on the inside also benefit from reduced sun glare and increased privacy.

FRONT

BACK

Print Methods on Vinyl

Clear Vinyl with no white ink: Creates a subtle appearance with muted colours that are semitransparent

Full Colour on White Vinyl: Solid, bright vibrant colours with a white back

White Ink on Clear Vinyl: White ink is printed behind the image making colours more vibrant with no translucency. Best on coloured walls or images with white and pastel colours. **Vector art required.**

Get noticed with a Dibond or PVC sign!

sterling marking products

Acrylic Signs

Indoor/Outdoor use, durable, rigid, and tamper resistant. Graphics are printed subsurface to protect them.
Double Sided add 25%. Holes or adhesive back is included but must be specified at the time of order.
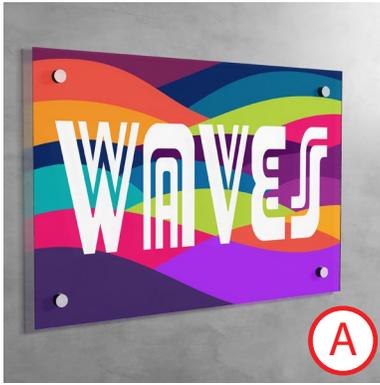

A) Full colour on white background for a completely solid design

ACRYLIC SIGNS ARE GREAT FOR DRY ERASE!
NO LAMINATE NEEDED, JUST WRITE WITH A DRY ERASE MARKER AND WIPE CLEAN.

B) Full colour on clear acrylic with none of the design backed in white for a semi-translucent design

C) Full colour design is backed in isolated white for solid colours on clear acrylic (Vector art required or additional design charges may apply)

D) Centre of the design is backed in white making that area solid. Areas not backed in white are semi-translucent.
(Vector art required or additional design charges may apply)

D

STYRENE PLASTIC POSTERS

Great for displays, promotions, interior or exterior signage, trade shows, and sidewalk sales.

• Full colour graphics printed directly onto the material

0.020" Styrene
A great alternative to posters as they are much more durable and last longer without requiring laminate. They can be rolled up and then mounted directly on a wall or inserted into a poster frame.

0.040" Styrene
Perfect for displays, small more permanent signage or special applications like parking tags to hang on rear view mirrors. This thickness stays flat while still maintaining some flexibility.

0.060" Styrene
Permanent signage with a nicer finish and lower profile than Coroplast and PVC while maintaining a comparable amount of rigidity. Can also be used for large volume low cost name badges and other unique applications.

Laminate	1-4 sq.ft	5-9 sq.ft	9+ sq.ft
Matte	$3.50/sq.ft	$2.95/sq.ft	$2.45/sq.ft

NEW

Feather Flags

Their tall, vertical design makes them a go-to choice for storefronts, events, and roadside promotions. With the opacity of our block-out material, double sided options can display two completely different images on each side.

Single Sided

Part #	Description	1-9
6SSFFST	6' Flag Ground Stand	$236.95
6SSFFSL	6' Flag Ground Sleeve	$236.95
8SSFFST	8' Flag Ground Stand	$296.25

12DSFFST	12' Flag Ground Stand	$563.95
12DSFFSL	12' Flag Ground Sleeve	$563.95

NEW

Teardrop Flags

Teardrop flags are especially effective for logos or graphics that are nearly as tall as they are wide, due to the advertising area being different to the feather style flag. With the opacity of our block-out material, double sided options can display two completely different images on each side.

Single Sided

Part #	Description	1-9
5SSTFST	5' Flag Ground Stand	$236.95

10DSTFSL	10' Flag Ground Sleeve	$563.95

Flag Hardware

All poles are built from heavy-duty fibreglass, with an aluminium jacket reinforcing the base for added strength. The top section is both strong and flexible, designed to keep your banner secure while bending with the elements rather than breaking.

The ground sleeve system is one of the most reliable in the industry. Installed at ground level, the sleeve allows the pole to be easily removed for lawn care while the sleeve stays in place. It can be installed or relocated as needed, and setup is simple—the flag slides over the pole and is secured to the adaptor with a small bungee cord.

For concrete, asphalt, or indoor use, the stand is the ideal solution. It offers the same easy setup but with greater flexibility, making it perfect for anyone who needs a portable, non-permanent option.

ANSER INK JET PRINTERS

Choose the right printer for your needs!

- Computer software included
- No maintenance, no mess
- Every ink cartridge contains a new print engine
- Each unit is run by remote

ANSER U2 Pro-S

Small yet powerful, the ANSER U2 Pro-S features the world's first solvent-compatible cartridge, designed specifically for primary package coding applications. This mighty printer packs the punch of a CIJ (Continuous Inkjet) printer at a fraction of the size and cost. The U2 Pro-S specializes in printing on non-porous materials such as plastic, rigid plastic, metal, aluminum, bags, pouches, and glass.

Speed: 600 x 300 DPI
Max Height: 0.5"
Print Surface: Non-porous Only

ANSER Smart Printhead

The ANSER Smart Printhead delivers a versatile, scalable coding solution for everything from stand-alone systems to complex, multi-line automated factories. Its innovative design houses the world's smallest print controller with interchangeable printhead technologies, offering flexible integration and a wide ink portfolio.

With simple one-button control, it reduces training time, streamlines operation, and minimizes downtime. Industry 4.0-ready, it supports Modbus for seamless equipment communication and features ANSER Xonnect for real-time remote monitoring and control from any mobile device.

Coding Speed: 60m/min at 300 DPI and 300m/min at 60DPI
Non-Contact Coding: 6mm print distance
Flexible & Expandable: 32+ printhead per hub
Max Height: 4"
Print Surface: ANSER Xonnect provides instant warning on risk detection, and data analysis report
Warranty: 5 years

ANSER A1

The ANSER A1 all-in-one TIJ industrial printer redefines cost-effective coding, delivering advanced performance for box printing in food, beverage, pharmaceutical, and electronics industries.

As the first 2-inch all-in-one printer, it supports eco-friendly direct coding, cutting label usage and preprinted box waste to boost sustainability. With simple setup, zero maintenance, and advanced software for the lowest cost-per-print, the ANSER A1 is the ideal low-cost solution for case labeling.

High Resolution Printing: 600 DPI
Non-Contact Printing: 6mm print distance
ANSER Quick Switch: Optimization of your production process
Smart Setup: Simple 3-step setup guide
Non-Contact Printing: 2-inch-high resolution print message using dual ANSER A-1-inch cartridges

ANSER INKJET PRINTERS

ANSER X1 Thermal Inkjet Printer

The ANSER X1 features NexGen Coding Technology, designed to drive multiple thermal inkjet cartridges, giving you a complete solution for all of your coding requirements. The printer is meant to redefine expectations of an industrial printer by providing robust reliability even under the most crucial working environment at one of the most competitive price points you will find for a thermal inkjet printer.

The controller is IP66 (comes as standard!) with total dust ingress protection, and capable to withstand high pressure water jet during production wash down.

The X1 user-interface design is not only user friendly, but intuitive, making operational mistakes nearly non-existent.

Capabilities

Need	Solution
2 Production Lines, 1 printer	X1 is capable of controlling 2 different production lines simultaneously, providing you operational efficiencies and cost saving advantages.
High Speed Coding	300m/min high resolution coding
Large-Image Coding	2-inch print height
Non-Contact Coding	1/2-inch (12mm) print distance
Non-Stop Coding	Cartridge replacement without downtime

Ink Cartridges for Printers

ANSER's solvent-based ink portfolio provides high resolution printing on variety of non-porous substrates such as plastic (PE/PVC/PP/PS), metal, glass, or varnished materials. Whether your requirement is drying performance on substrate or long decap maintenance ease, we have the ANSER.

Ink Jet Printers

INK JET PRINTERS

Ideal for best before dates, lot codes, and traceability. Print on plastics, metals, glass, wood, and many other substrates.

- Non-contact high speed printer
- Versatile in printing on all substrates
- Bulk ink system with no waste

bestCode

BestCode

High speed, Non-contact, Continuous ink jet printing systems! Extremely versatile in printing on all substrates with instantaneous dry time. Ideal for best before dates, barcodes, lot codes, and traceability. Print on plastics, metals, glass, wood, and many other substrates.
- Throw distance of 0.23-1" (6-25 mm)
- High volume applications
- Bulk ink system with no waste
- ALL BestCode machines come with a 5 year warranty!

C82 C82: Designed for slower production line speeds with basic applications of printing 1 or 2 lines of text, with 1-2 shifts per day, 5 days per week, 1000-2000 hours annual operation. Includes 5 Year Warranty!

C86 C86: Designed for high-speed production line applications printing 1-3 lines of text with 1-2 shifts per day, 5 days per week, 2000-4000 hours annual operation. Includes 5 Year Warranty!

C88 C88: Designed for high speed production lines/ high use applications, printing 1-4 lines of text, with 2-3 shifts per day, 5-7 days per week, 6000-8000 hours annual operation. Includes 5 Year Warranty!

BestCode Quantum

Designed for high-speed printing applications, capable of printing 1, 2, 3, 4 or 5 lines of text, barcodes or graphics, with 1, 2, or 3 shifts per day or 24/7 operations, 5 to 7 days per week, averaging 4,000 - 8,760 hour annual operation. Remote control communications available.

REINER

Reiner JetStamp

Prints easily, quickly and quietly on all even and uneven surfaces. Suitable for automatic applications and quickly adaptable to the changing demands of workplace organization.
- Non-Contact high speed printer
- UV-Security ink compatible
- Prints on porous and non-porous surfaces
- ERP/database connectivity
- Rechargeable batteries and station

Product Specifications

- Number, date, time and text in a one or multi-line impressions depending on font size
- Prints graphics, 1D and 2D barcodes, and alphanumerics
- Simple menu selections with user-friendly LCD-display
- Different impressions stored in the stamp memory
- Custom texts or special functions can be stored

Contact **industrial@sterling.ca** for more information!

sterling marking products

Ink Jet Printers

INK JET PRINTERS & CONVEYANCE SYSTEMS

Ideal for best before dates, barcodes, lot codes, and traceability. Print on for corrugate, wood, paper bags and many other substrates.

- Non-contact high speed printer
- High volume applications
- Easy to replace & Install
- 30% larger print than comparable printers

SQUID INK

Squid Ink Jet

Ideal for specific applications requiring large characters over 0.5" on a porous substrate. Can use 1 or 2 printheads from the same controller.

Co-Pilot:
Feature rich printing systems with up to 30% larger print than comparable printers and an increased throw distance.
- High volume applications
- Bulk ink system with no waste

SQ/2:
Easy to replace & Install Printheads with industrial strength, heavy-duty gauge coated steel cabinetry.
- High volume applications
- Bulk ink system with no waste

---

Universal Conveyor

Variable speed conveyor for any application and any print system. ESA approved.

- Belt width: 190 mm, 7.5"
- Variable Speed: 5-28 m/min

Part #	Dimensions
B6110	1500 x 300 x 750 mm
B6110-1	1500 x 400 x 850 mm

Universal Dispensing Conveyor

Variable speed conveyor for packaging. Can be used with any print system.

- Variable Speed: 15-20 m/min
  Belt width: 235 mm, 9.25"
  ESA approved

Part #
A6110

Universal Inkjet Mounting Stand

This stand can be used with various models of inkjet printers.

- Adjustable vertical height and horizontal mounting arm
- Three leg base for stability & portability
- Rotational and height adjustment for printer

Part #
C6S

CODERS AND STENCILING

Choose from a variety of units for marking porous and non-porous surfaces. Low cost, low maintenance marking.

Roller Coder

Designed for mounting directly on conveyor lines or packaging machinery. Roller coders are available in Porous & Non-Porous, Indexing and Non-Indexing, and choice of top or side mount (please indicate right or left). Best suited for applying date/product codes or product information on cartons and other materials with porous or non-porous surfaces. Call for quotation.

Oneshot Stencil Applicator

3" neoprene roller for all surfaces. The ink is contained within the handle, offering portable stenciling without the mess. Choose the colour when ordering.

Part #	Description
865	Oneshot kit (8 same colour cartridges)
881	Oneshot kit (1 cartridge)
809	Oneshot Roller Assembly 3"
807	Replacement roll - 2 per package

Custom Unilok logos and type sorts are available upon quotation. Part # 192.

SPOT MARKERS

Mark items with a dot, manually or automatically.

Micro-spray Spot Marker

Light weight, smallest on the market! Marks 1/4" - 1" diameter on porous or non-porous surfaces. Designed for non contact applications where colour coded spots or stripes are required for production identification or acceptance/rejection indication is needed. Rugged construction means low maintenance, worry free performance. Used most commonly with 850 ink.

Part #
USMR-20AF

Inspection Markers

Spot markers can be used manually or for automatic applications. Tip produces a round 1/4" spot mark on any smooth dry piece. Used most commonly with 1061 ink. Ask about our touch marking systems.

ELVEM METAL MARKING

Easily mark a variety of component shapes, dimensions, and substrates from plastic to hardened steel up to 62HRC.

- Carbide pin is used to consistently mark the surface with True Type Fonts, VIN, Alphanumeric, Data Matrix, Dot Matrix 2D Codes, Shift Codes, Barcodes, Serial Numbers, Date, Time, Letter, Figure, Logos, Graphics, and more
- The solution for accountable manufacturing environments where parts or components must be marked with identification, traceability, and variable data information
- User-friendly software is a Windows-based "Point and Click" application - No other software required

Shown with optional rotary fixture

Permanent Marking on:

Aluminum • Brass • Copper • Steel
• Galvanized Steel • Painted Steel
• Stainless Steel • Plastic • Ceramic

EL-4 TRACER   EL-3 Mobile   EL-4I

The Elvem Tracer EL-4 and Mobile EL-3 Digital Pneumatic Pin Dot Marking Systems have been designed for industrial environments and can be used as a bench top unit or in factory automation production. Optional rotary fixture (shown above left) and nameplate fixture are available. Both the Tracer and Mobile run on 0.2 - 0.6 Mpa compressed air. The Mobile unit comes with an industrial grade aluminum controller carrying case that includes the computer and software to run the unit. The EL-3 Mobile is reliable, compact, and lightweight at only 3.5kg. It can be quickly and easily moved for part marking around your workplace.

CIM EMBOSSERS/INDENTERS

The ME1000S and ME2000S are robust and reliable electronic embossers engineered for heavy duty and able to handle large metal plate volumes. ME series supports a wide variety of sizes, shapes, thickness including stainless steel, aluminum, copper and brass.

- 7" colour touchscreen display with high resolution
- IoT (Internet of Things) remote access and management
- • USB (type A, type B), Ethernet and WiFi

Metal Plate Embosser

The ME1000S and ME2000S has a 10% increase in product speed with it's renewed design and features. Choose from the semi-automatic (ME1000S) or automatic (ME2000S) which makes loading and unloading easier.

It is equipped with a built-in 7 "WVGA LCD touchscreen display with simple and easy to use icon and buttons. The user can access and manage machine functions through a multi-level menu in an easy and intuitive way.

ELECTROCHEMICAL MARKING

Make a mark on metal by using a small amount of electric current, an electrolyte solution, a marker with pad, and a stencil.

- Quick, precise, economical, and permanent mark on metal
- Create stencils with your logo, trademark, part and serial numbers, date codes, inspection stamp, and grids
- Industrial use for Aerospace/aircraft, Automotive/die tryout, Knifemakers, and Medical/Dental trade

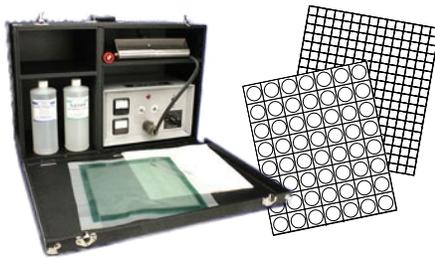

Monode
MARKING PRODUCTS, INC.

Monode Metal Marking Kit

Permanently marks any metal in seconds! Does not weaken, deform or contribute to part failure. A small amount of metal is removed for etching (about .0001" to .006"). Six power units are available on the basis of mark, depth, and speed of marking. Settings for black, white, coloured, frosted, or clear etches.

Part #	Description
V10AK	Portable Marking Kit w/ power unit
V10A	Power unit only

Custom stencils available upon request

Kit Includes:
- 1 roll of stencil
  - Power Unit
- 1 Handmarker
  - Cord set
- 1 qt. Electrolyte
  - Bench Fixture
- 1 qt. Cleaner
- BU Hand Ground
  - 1 Cleaner Tray

Kit Includes:
7 x 10" rocker pad or 10" roller marker • Grid Stencil of choice up to 10" • HDU Cord set • 1 qt. Electrolyte • Measuring Tape • 1 qt. Cleaner • V-45A Power Unit
* Fitted Carrying Case not included

Lectroetch GMK Grid Marking Kit

Best method for griding metal blanks with patterns. Available in sizes up to 10" x 20" with a variety of squares or circular grid patterns. Stencil can be applied to sheet metal prior to forming. The grid pattern is reproduced with the use of a heavy duty power unit and rocker pad or a roller marker.

CUSTOM DRY ERASE BOARDS FOR INDUSTRIAL APPLICATIONS

Durable dry-erase whiteboards custom designed to suit your business needs.

• Perfect for food processing operations and industrial applications
• Will not absorb moisture and rot in moist environments
• Easy to clean and extremely lightweight
• Aluminum outer with polyethylene core

Dry-Erase Whiteboards

Completely customizable print in full colour! Made from 1/8" white dibond (aluminum outer and polyethylene core). Easy to clean, extremely lightweight, rigid, and durable. Recommended for indoor use only. Mounting hardware (screws, stand-offs, or adhesive) and dry-erase markers sold separately.
