SPECIALTY STAMPS

Special applications that need a custom stamp.

- For use with fast drying inks
- Marking on non porous and uneven surfaces
- Perfect for small businesses and DIY applications

Traditional Rubber Stamp + Deep Mould

Our traditional rubber stamps have photopolymer dies, perfect for marking on porous surfaces like paper, but if you're going to be stamping thicker porous surfaces (like corrugated cardboard) or for large stamps with a lot of detail, then the deeper mould ensures a quality impression on a larger variety of surfaces.

Natural Rubber

Recommended when stamping non porous surfaces that require fast-drying inks such as catalogues, photographs, metal, and varnished wood. Our natural rubber stamps will not swell when using fast dry ink, allowing a good impression every time you stamp.

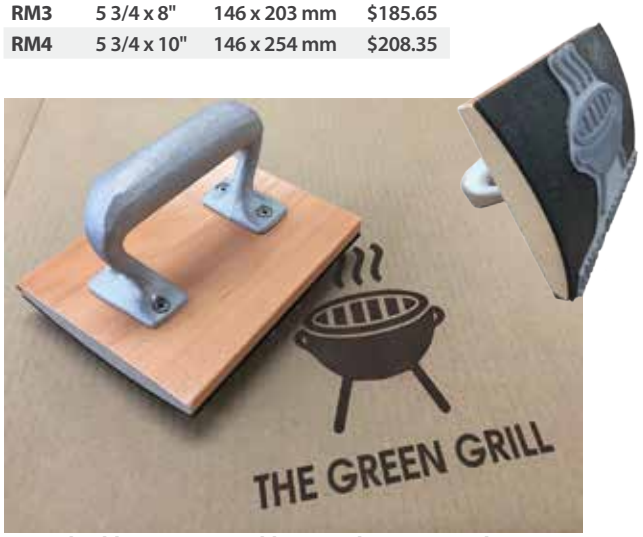

Natural Rubber + Deep Mould

Natural Rubber Stamps with Deep Mould are recommended for oversize stamps with detailed logos, multiple lines in a thin font style, and stamp images containing larges areas with no graphics to ensure all details and text are legible ensuring a quality stamp impression.

Rocker Mount

For uneven surfaces or areas with mild recess, a deep mould with a rocker mount is recommended. Best for wood and corrugated cardboard. Price includes mount and stamp.

Part #	Size (in)	Size (mm)	Price
RM1	5 3/4 x 4"	146 x 102 mm	$140.95
RM2	5 3/4 x 6"	146 x 152 mm	$163.35
RM3	5 3/4 x 8"	146 x 203 mm	$185.65
RM4	5 3/4 x 10"	146 x 254 mm	$208.35

DermSafe Hand Sanitizer

Canada's elite hand sanitizer is here! DermSafe® is the first hand sanitizer to receive the Canadian "Dermatology Review Panel" Seal of Approval. The DRP, an independent panel of Canadian dermatologists, granted their seal of approval after reviewing DermSafe®clinical data and claims.

It is also one of the only hand sanitizers that uses CHG; the same ingredient used in soaps by hospitals world-wide to kill germs. Alcohol-based santizers offer no long term protection – once the scent dissipates so does alcohol's effectiveness. Where continual use of alcohol dries out your skin and can cause skin dermatitis, DermSafe is a lotion that seals and protects your skin without the use of alcohol.

Part #	Size	Price
DERM1-2	59ml	$ 12.99
DERM1-8	236ml	$ 24.99

DermSafe	Alcohol-based

B2410	$0.70

FULL COLOUR VINYL

Custom decals for every purpose imaginable.

- Decals in small or large quantities
- Installation-ready vinyl letters and graphics

Which Material Is Right for You?

Permanent Vinyl Decal

- Durable more permanent option
- Heavy-duty adhesive
- Recommended for long-term use on walls and windows

Adhesive on front or back, laminated for indoor or outdoor use. Minimum order of $15.00. Call for quotation on orders over 100. For images with white or creamy colours, we recommend printing on white vinyl or printing with isolated white ink.

Removable Vinyl Decal

- Low-tac adhesive removable vinyl
- Great for temporary signage
- Recommended for short-term use on walls and windows

Sticks to glass without adhesive and can be taken off and reapplied without leaving residue. Great for signage you may want to replace. For images with white or creamy colours, we recommend printing on white vinyl or printing with isolated white ink.

Perforated Vinyl Decal

- Evenly spaced holes throughout the vinyl allow for one-way visibility
- Recommended for long-term indoor use or short-term outdoor use on windows

Utilize your window space for advertising without sacrificing natural light or visibility. Those on the inside also benefit from reduced sun glare and increased privacy.

FRONT

BACK

Clear Vinyl with no white ink

White Vinyl

Isolated White Ink

White ink printed behind makes colours more vibrant with no translucency. Best on coloured walls or images with white and pastel colours. **Vector art required.**

Clear Vinyl with isolated white ink

STYRENE PLASTIC POSTERS

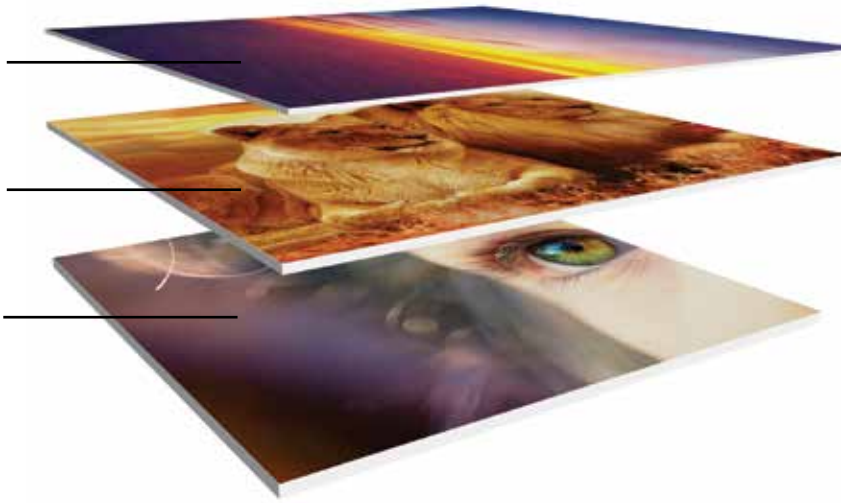

Great for displays, promotions, interior signage, trade shows, sidewalk sales, and exterior signage.

- Full colour graphics printed directly onto the material

0.020" Styrene
A great alternative to posters as they are much more durable and last longer without requiring laminate. They can be rolled up and then mounted directly on a wall or inserted into a poster frame.

0.040" Styrene
Perfect for displays, small more permanent signage or special applications like parking tags to hang on rear view mirrors. This thickness stays flat while still maintaining some flexibility.

0.060" Styrene
Permanent signage with a nicer finish and lower profile than Coroplast and PVC while maintaining a comparable amount of rigidity. Can also be used for large volume low cost name badges and other unique applications.

Styrene Plastic Posters

Lightweight, durable, flexible and easily transportable. Smooth bright white finish that is suitable for indoor and outdoor use. Double Sided add 25%. Holes or adhesive back is included but must be specified at the time of order
